MAKE MUSIC Australia JUNE 21

City of Canada Bay

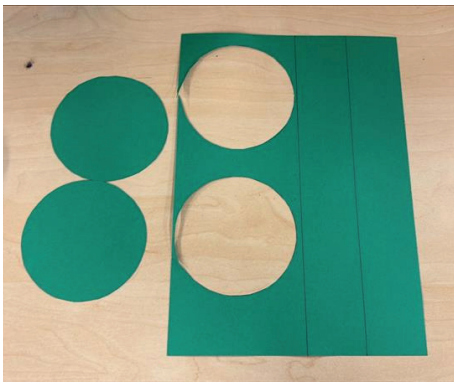

Make & Play Instruction Sheet

How to Make Flat Hand Drums

5 MINS

1

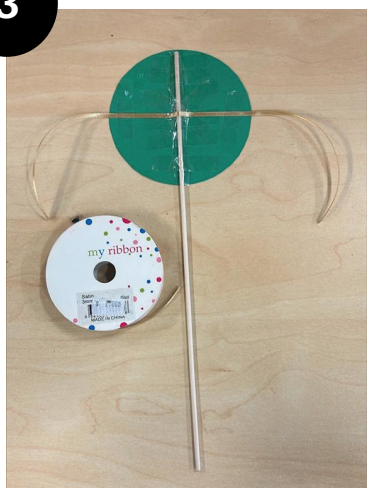

Cut out 2 circles from an A4 template cardboard paper.

2

Tape down the stick vertically onto one of the circles until it is secure.

3

Cut a piece of ribbon and tape it horizontally across the circle.

4

Glue the second circle on top and use tape to keep it securely in place.

5

Thread 3 beads on each side of the ribbon and double knot the ends so it doesn't fall out.

6

Wrap aluminium foil around the bottom of the stick and secure it with tape.

7

Finally, decorate however you want. Then play some music!
